“
Your vessel is only as strong as its crew. We provide the very best.

What do you gain with TMLG?

Speed and reliability
We begin sourcing the right crew immediately after registration.

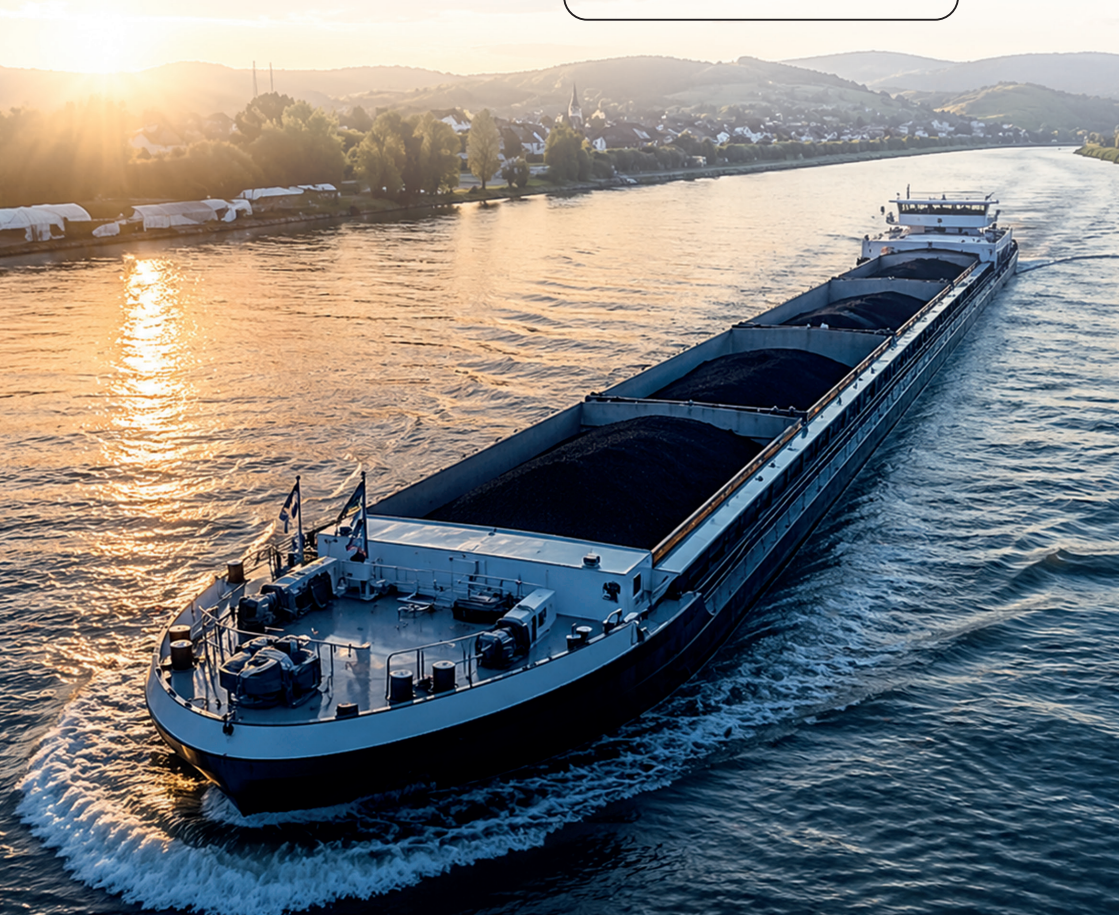

Flexible solutions
We adapt rotations and crew changes quickly according to operational needs.

Comprehensive service
From recruitment and administration to logistics and onboarding.

Stress-free cooperation
We handle everything for you, so you can focus on your operations.

Long-term cooperation
Our crew members are motivated, reliable, and professional.

A reliable partner for your business in qualified crew recruitment.

Reliable crews
for your vessels

We provide qualified deckhands and captains for inland cargo and passenger vessels across Europe. Thanks to our extensive experience and broad crew database, we are able to staff vessels with everyone from deckhands to experienced captains.

We believe that a strong and satisfied crew is the heart of every vessel. We work with our crew members and captains on a long-term basis, focusing on fair conditions, safety, and professional growth. This allows our partners to benefit from loyal and highly motivated personnel delivering top-level performance.

Complete crew management

We provide recruitment, administration, employment contracts, logistics, and rotation planning. This allows you to fully focus on operating your vessel.

Crew training and development

Our crew members regularly complete professional training and renew certifications through TMLG Academy. We are also actively developing the next generation of inland waterway crew and captains.

24/7 operational support

Throughout every rotation, we provide continuous support to both clients and crew members, including fast solutions for personnel changes and operational emergencies.

International presence and flexibility

We operate offices in Slovakia, the Czech Republic, Germany, and Switzerland, as well as delegated workplaces in Hungary and Poland, enabling us to provide flexible support throughout Europe.

We understand the legislation of different countries and provide flexible employment solutions.
Including attractive Swiss and German employment contracts for crew members, increasing stability and motivation.

“

Your vessel – our responsibility.
We provide crew, logistics, and support to keep your operations running without downtime.

Crew Deployment

An Efficient Process with TMLG

01.

Request Registration

The client contacts us and submits a request for a specific crew type or position.

Agáta Jendrichovská

02.

Crew Selection

We select suitable deckhands or captains according to the vessel type and operational requirements.

03.

Administrative Preparation

We arrange contracts, permits, insurance, and all required certifications.

04.

Logistics and Transport

We transport crew members directly to the embarkation point — quickly and without complications.

05.

Crew Embarkation and Deployment

Crew members board fully prepared, equipped, and ready for duty immediately.

06.

Crew Training and Development

Regular training and certification renewals (ADN, radar, occupational safety). At the same time, we are educating a new generation of inland waterway crew and captains through TMLG Academy.

07.

Rotation Support

Throughout the entire rotation, we provide continuous support to both clients and crew members.

Our Approach

Our goal is to be a partner who provides not only personnel, but also smooth and efficient fleet operations.

TMLG GROUP stands for stability, flexibility, and reliability in every phase of your operations.

- **Reliable and fast vessel staffing**
- **Flexibility even in unexpected situations**
- **Qualified and continuously trained crews**
- **Efficient operations without unnecessary downtime**

TOGETHER WE ARE STRONGER

“

The only way to do great work is to love what you do. If you haven’t found it yet, keep looking. Don’t settle.

-- Steve Jobs --

TMLG Academy

We educate a new generation of inland waterway crew.

Today a trainee. Tomorrow a captain.
We do not wait for a shortage of qualified crews.
We actively prepare young crew members for the future of inland navigation.

At TMLG Academy, we train new crew members who gain real operational experience directly in inland cargo and passenger transport.

It is more than training.

We are building a new generation of professionals who will shape the future of European inland navigation.

TMLG ACADEMY

FROM TRAINEE TO CAPTAIN IN 3 YEARS!

YOUNG PEOPLE. REAL EXPERIENCE.
FUTURE CAPTAINS.

Stable crews for the future as well!

Many companies today face a shortage of qualified crew members.
TMLG follows its own path.

In addition to our extensive database of experienced crew members, we systematically educate our own young professionals who gradually become stable crew members and future captains.

This allows us to provide clients with:

- ☑ **Long-term crew stability**
- ☑ **A continuous inflow of new personnel**
- ☑ **Higher loyalty and motivation among crew members**
- ☑ **Professional growth and continuous education**

We are not just building a crew database.
We are building the future of inland navigation.
